Profiles

📌 [in nitishmothilal](#)

📌 [nitishengineer](#)

Summary

Enthusiastic software engineering student graduating in 2026, with strong foundations in Object-Oriented Programming (OOPS) and Data Structures & Algorithms (DSA). Passionate about solving complex problems, building efficient applications, and continuously learning modern technologies to deliver impactful solutions.

Education

● **Sona College of Technology**
Computer Science and Design
6.8 CGPA
B.E
2026

Projects

- **Endless 3D Runner Game (Unity)**
 - Developed a prototype PC video game inspired by Subway Surfers
 - Implemented player controls, obstacle mechanics, and scoring system in Unity
 - Showcased creativity and problem-solving in game development
- **Banking Setup (Python, OOPS)**
 - Built a console-based banking application using Object-Oriented Programming principles
 - Enabled account creation, deposit/withdrawal transactions, and balance viewing
 - Strengthened understanding of OOPS concepts and real-world application design
- **Employee Details Management (SQL)**
 - Designed and managed employee database using SQL
 - Created queries to generate outputs under multiple conditions (filtering, grouping, aggregation)
 - Demonstrated proficiency in relational database management and query optimization
